Bringing balance to cosmetics

From organic  
to highly refined,  
from basic oils  
to synergistic  
and custom-made  
formulations.

Vantage™ offers the solution  
to every need.

We produce and supply **the highest quality vegetable oils** for the cosmetic sector worldwide, as indispensable ingredients for all sorts of personal care products. From rinse-off to leave-on, ideal for direct application to skin and hair as well.

## Virgin oils

Obtained solely by mechanical or other physical means under conditions that do not lead to alterations in the oil.

---

## Organic oils

We hold the COSMOS CERTIFIED certification for organic ingredients / raw materials for cosmetics, issued by Ecocert Greenlife under COSMOS standard.

---

## Refined oils

Pure natural vegetable oil, thoroughly purified to control the colour, odour, acidity and oxidation of the oil.

---

## Essential oils

Highly aromatic volatile organic oils present in plants. Pharmaceutical and therapeutic potential. Enormous potential as active compounds and wide spectrum of biological properties.

## Quality control

At Vantage™ facilities, a fully-equipped laboratory performs **quality control to ensure compliance of organoleptic, physicochemical and microbiological specification parameters**, including fatty acid profiling and oxidative stability testing. Retain samples are stored upon batch production to check any possible later deviation. Re-testing service is also provided.

---

## Pharmacopeia grade

Pharmacopeial grade is available for a large number of refined Textron oils, suitable for Pharma applications and meeting requirements of, among other:

- **European Pharmacopeia (EP)**
  - **British Pharmacopeia (BP)**
  - **United States Pharmacopeia (USP)**
- 

## Technical & regulatory support

Vantage™ provides **permanent, dedicated and personalized customer care** and post-sales support on technical & regulatory questions.

## Evoil™ Basics

Custom-made oils to improve your formulations.

This product range consists of a series of Evoil™, plant oils in which the basic properties of each oil have been **optimised to obtain greater functionality and stability**.

Evoil® basics have been developed to replicate the classical fatty acid composition of each specific plant or fruit oil without sacrificing any of the **intrinsic beneficial qualities of the oils**.

The physical characteristics have been carefully designed to create a product with minimal colour and odour. The result is a consistent, superior and cost-effective product.
