

Technical Data Sheet

Product Description

B&B 1200 MAE is a versatile, concentrated liquid compound, used in cleaning wheel wells, wing butts, flaps and bellies of painted and unpainted aircraft, including exterior surfaces. This product was developed to be used in circumstances where petroleum solvents cannot be used.

Features and Benefits

- Pleasant, mild fragrance
- Removes light, medium and heavy soils
- Superior rinsing qualities
- No petroleum solvents

Process

B&B 1200 MAE is typically diluted to 1 part B&B 1200 MAE to 1 part water for cleaning wheel wells, wing butts, flaps and bellies of painted and unpainted aircraft. Apply the solution by pressure spray.

For other remaining exterior surfaces, use one part B&B 1200 MAE to nine parts water.

To complete operations, rinse with pressure water, cold or warm. If water rinsing is not available, remove compound and soils with a damp mop.
