

B&B™ BIG BLUE

Technical Data Sheet

Product Description

B&B BIG BLUE is a concentrated liquid compound designed to meet the environmental and economical needs for cleaning and degreasing industrial parts and equipment, through recirculating high-pressure spray cabinets.

Features and Benefits

- Oils, greases and soils are separated from spray tank cleaning solutions when using B&B BIG BLUE
- Low foam
- Exceptionally long tank life
- Superior hard water stability
- Safe on most paint coatings

Process

B&B BIG BLUE is intended to be diluted with water prior to use. Typically, 4 liquid ounces of B&B BIG BLUE diluted with 1 gallon of water is adequate for most cleaning/degreasing operations. Operate solutions in recirculating high-pressure spray cabinets at approximately 150°F (65°C). Decrease temperature to fit job requirement. Rinse with cold, warm or hot water to fit job requirement.

Approvals/Testing

Continental Airlines (now United Airlines)

Disposal/Safety

Disposal

Vantage recommends contacting your current or local environmental service company for proper disposal.

Safety

Please see Safety Data Sheet for further information.

Packaging

Available in pails and drums.

Shelf Life

12 months when stored in original, sealed container above 50°F (10°C).
